Q17.

Read the passage carefully and select the statement that can be inferred from it.

E-mail over load has of-late become a great cause of concern in an organisation. We have reached a stage where our email habits controls us. We are obsessed with checking our mails every now and then. We feel bored of working and we glance into our mailbox hoping to have received “scintillating” mail. Obviously, it also gives us an illusionary impression that we working. Not missing any mail and replying to each one of them has become a custom. Our addiction to this leading to our ignorance of deadline, meetings, personal chit chat, with fellow employees. It is a shame that we have inculcated a habit of reading mails but not taking timely action on mails.

Q18.

This year, on which day, does Rohit’s birthday fall? Statements

i)His birthday falls between October 27 and 30, October 27 being a Tuesday ii)His birthday is not on Thursday

a. Statement I alone I su13cient

b. Statement II alone is su13cient

c. Both statements put together are su13cient

d. Both the statements even put together are not su13cient

Free Placement Video Tutorial with Mock Test visit:
www.MyPlacementPrep.com

lowest tax rate of 15 percent on the list price reserved for cars emitting less than 165 gms/km and rising by one percent for each 5 gm increase in CO2 levels.

a. The British are unconcerned about the environment and rules have to be imposed upon them for maintenance of a clean environment

b. The lesser the list price of a car, the greater is its fuel e17ciency and so lesser the tax on it.

c. The more fuel e17cient a vehicle is, the more eco-friendly it will be.

d.)Fuel e17ciency does not necessarily correlate with eco-friendliness

Q21. 1. **Given signs signify something and on that basis, assume the given statement to be true. Answer the question basis the information provided**.

'!' denotes "greater than"
'*' denotes "equal to"
'+' denotes "less than"
'$' denotes ''not equal to''
'x' denotes "not less than"
'%' denotes "not greater than"

PRUV

CEHL

Q57. Read the passage carefully and select the statement that can be inferred from it.
Sales drives in big organizations many a times fall at on the face. A research showed that an average buyer remembers only 20% of the things discussed during a sales call. The saddest part is that the sales team doesn't get to choose what those 20% of things would be. The world today is cluttered with information and thus it is essential that the sales team represents their product/service in the best possible manner. It is like answering questions that children ask. Expect basic and out of context questions and reply to each one of them, patiently, in a way that the customers understand the intricacies. You can use technical terms to expain your product and its features. No doubt, it will be an accurate methodology but certainly not the right one. Simplify your message and see how well your client remembers you and your presentation when you meet him to nally close the deal.

Free Placement Video Tutorial with Mock Test visit:
www.MyPlacementPrep.com

-

A regular buyer would remember more than 20% of the details after a sales meeting.

A customer is as gullible as a child and hence may ask many questions.

One should try and minimize the usage of technical terms to explain a product to the customer.

If you simplify your message, the customer would remember your entire presentation.

Q58. Shilpa walks 6 Km towards South. From there, she walks 9 Km towards East. Then she walks 2 Km towards South. Again she walks 3 Km towards West. How far is she from her original position?
