TCS-Placement Paper-28 May 2006-Narsapur

I got placed in TCS thro' on-campus placements. Finished 3rd yr n got into 4th yr. This placement I could divide into 3 parts.

Preparation, Online test, Interviews.

PREPARATION

My preparation was completely from previous papers and to some part from R.S.Aggarwal.

But, R.S.Aggarwal dint serve me much as I found many of the aptitude questions or atleast the models found from previous papers.

I dint open GRE Barron's for verbal part but only learnt the verbal Q's from previous papers and went thro' some CAT materials. But, I would suggest you to read GRE Barron's as it helped many of my friends to get thro' this part.

My preparation	was for	about 5	days o	or even	less	than	that	and ?	I was	enjoy	ing	my
preparation.												

·

ONLINE TEST

The Q's differed from one student to the other as far as I know.

The online test can be of 3 parts:

- 1. Verbal Ability
- 2. Aptitude (quantitative)
- 3. Critical Reasoning

NOTE: Psychometric test was not there for on-campus tests. That might be there for off-campus.

Verbal - This part disappointed me much as I prepared entirely from previous papers and to some extent the CAT materials as I said but, I managed through options for Synonyms and Antonyms picking out the odd one out. Time was sufficient but because its online test marking out the answer and coming back to the question already visited but unanswered created wastage of time as only one question is displayed on the screen at a time. As, no negative marking as far as I know, I suggest not to leave any question unattempted. Paragraph completion was a bit tough for all of them from our campus and consumed lot of time coz we have got to fill up the sentence in the blanks. But, don't worry you can get thro' easily. A total of 40 q's to be answered in 20 mins in these 3 areas -Synonyms, Antonyms & Fill in the blanks.

Aptitude - This part was quite easy and engineering students can easily solve many of them. Some Q's were on Pie & bar graphs which were bit tough. But others previous papers served a lot. Learn the answers for some Q's from previous papers even if you are not aware of how to solve them. But, model may be the same, data may change, so be careful.

I would have given those Pie n bar graphs as I dint find any of them in previous papers but I too don't remember as I dint solve it in the test. Go thro' some of them in GRE Barron's or any of CAT materials (more than enough). Rest of the Q's even if I write them here its waste as they are already entirely from previous papers of 2000- 2006 mostly.

Critical Reasoning -This part was very difficult for all of them from our campus. But, pre-preparation for this area dint also serve. But, if you want to prepare you can from CAT materials (Logical Reasoning part).

3 Paragraphs were given and each consisted 4 q's (12 q's total) in 30 minutes.

Time was not at all sufficient. I would suggest you to thro' all the paragraphs and q's at once and decide the 2 paragraphs those are comparatively easy to be solved first and rest answer ticking the guessed option. I answered q's on one of the paragraphs totally correct and another 2 q's correctly and rest all I guessed the answers.

One paragraph was difficult to understand itself and I was unable to make out what the actual picture could be for a long time. Then, I went for the others leaving that

Visit <u>www.123eng.com</u> Engineering projects Chat with other engineers at <u>www.123eng.com/forum</u>

completely with guessed answers.

For instance, names of about 15 members were given and their arrangement in a circular table was asked giving a set of conditions on it.

One more set of questions where Democrats, Conservatives and delegates under them & some conditions for the delegates to be a Democrat or others were given

One more, which was easy to answer all the questions from that paragraph.

But, anyhow you can easily get thro' if almost all the previous papers are solved.

Interview was very cool. Actually many of my friends had 2 interviews- Technical and HR. But, I had to go thro' another round called Managerial round as my B.Tech aggregate was 81% pretty high for CSE students. So, I was tested how I would react under stress but, you know stress was completely lacking in that round. :-D.

I would suggest you all to be confident with enough preciseness and let them understand that you will be a good part of the organization n work sincerely.

Be good in explaining your strengths by taking instances for instance, you can say you have been pursuing good scores and always been among top 3 rankers in the school / you are good as a team member or leader as you have participated in different competitions or sports as a team etc / good in giving seminars/ good in grasping skills and so on. Explore your self and try to let them know all good things about you by not disclosing your weak points.

Technical round was composed of many technical q's posed on me. There were 2 people very friendly to me & no need to get tensed.

I managed to say "I don't know" in different ways like "I don't remember", "I am not quite good in that area", "I have no idea" etc. frankly when I dint know the answer. I was asked on different fields like Data Comm., Comp. Networks, C & DS, Java, UNIX, OS, DBMS and some others from my paper presentation "Voice Over internet Protocol". So, be prepared very well from your Paper Presentations or projects any as they are very much important. Some questions were on easy puzzles like how many squares and rectangles in a chess board and some 5 glasses placed in a line and first 3glasses filled with water, how to make alternative glasses filled? (by pouring water from 2nd glass to the 4th glass). There were even q's on Math like Euler's theorem, derivatives, integrals ad some from Management Science (MS) like HR functions, Personnel Manager functions, leadership qualities. So, technical interview is based on how you drag them to your strong areas by not letting them ask more on subjects you are weak at. Because, if they find a new word they are deviated to the subject related to the new word.

Techies on me were like-

- --Diff b/w Compiler & Interpreter.
- -- q's on Linked Lists in C, Binary Search program.
- -- Concepts of Compiling n running a program in Java & C. Bytes codes etc, JVM.
- -- Diff b/w C & C++.
- -- Concepts of Data Inheritance, Polymorphism, Data Abstraction, Encapsulation.

- --Diff b/w UNIX & Linux.
- --Communication concepts in UNIX (commands used for communication b/w users like mail, wall etc) & differences between them.
- -- Layers in OSI model and their functionalities
- --why is the network model divided into layers?
- --Virtual Memory Concept, Message passing & synchronization.
- --Integrity Constraints in DBMS, types of DBMS n uses.
- -- What type of communication either Token Ring- Ethernets, Token Bus are used in (our) lab? I dint know this, accepted frankly & explained what are Token rings -Ethernets, token buses instead. Answered all others except message synchronization concept (properly).
- -- Above said q's on Math, MS & on my paper presentation.
- -- Some personal q's on hobbies, competitions & securing marks in between each techie to keep you cool.

The interview was for about 20-25 mins. I was interrupted when I completed just one point in each question.

My friends were asked some other questions like:

-- Write a program in C to get the o/p as

*

* *

* * *

* * * *

- -- Searching & sorting Techniques.
- -- Chess program (just explain the modules and techniques which are to be considered like MinMax algorithm etc).
- -- Types of DDL n DML commands in DBMS.
- --What is RDBMS?
- --Applets and threads in Java.
- -- Some personal q's on hobbies like singing, painting, reading books.

One more thing, give your hand for a shake when asked for (only) without making any delay. Because, I delayed in Stress round when asked for suddenly and I then managed to answer the reason behind my delay frankly.

HR round was superb cool. Asked me how I was feeling in the interview process and about my family, future goals, three things necessary for a success, about other things I wrote in my resume. Asked me whether any changes are suggested by me in the interview process. About my hometown, about the bond (agreement for 2yrs), then whether I have any q's for them and finally the HR said that it was nice talking to me, I said "Thank U, U too Sir" and left.

So, this is about my recruitment process. Don't worry, it is very easy to get thro' as imagine, one of my friends was asked to sing (her hobby) in technical round.

I am sorry if there are any mistakes either grammatically or conceptually in this post. But, to my knowledge, they are correct.

Hope this would help you at least to some extent.

Good Luck & My Best Wishes to everyone.

TCS-Placement Paper-09 Jun 2006-Chennai

TCS came for recruitment on 9th and 10th june.

The first round was an online test.

Its marks alloted for various sections:

Verbal (Synonym + Antonym+Fill in with most appropriate sentence) - 20 marks Quantz(R.S Agarwal) - 40 marks ch eta nas

Critical Reasoning (This had some Puzzles like in George Summers .Eg. A is to east of c,c is south of d,blah blah and youll have to answer the questions) - 30 marks

Minimum Cut off was 52.5 and results will be flashed in the screen immediately.

Second round was Technical.Questions were asked generally regarding what you have mentioned in your resume and some general stuffs, about your projects etc.

Third round was an HR round. There would be some senior personnel interviewing you. You'll be tested both in technical and HR.

Both in Tech and HR only general concepts(Not deep into ur discipline,but some basic definitions. They Expect Realtime examples only) were asked and every person was tested in his Major only. Eg. Mechanical Students were asked questions only concerning to mechanical engineering.

TCS-Placement Paper- May 2006

As many of u are keen to know about TCS procedure I am giving u some idea about it.

TCS test is having three sections as

- 1. Vocabulary section
- 2. Quantitative section
- 3. analytical reasoning section

The test is either Online or Offline, if it is online then paper is somewhat easy but u have time limit to solve any of the section though u can scroll through ques. in that section. that is u have to complete 1st section in time limit given to u. this results in that the last section is somewhat easy and completes in less time but u cant solve ur ques. remaining in 1st section. thios is disadvantage of it. but if test is Offline then paper is hard whole paper(all three sections) is given to you and u have to solve it in 90 minutes no matter that u are scrolling through sections or not.

1st section consist of 10 synonyms and 10 antonyms, paragraph complition and ques. from given para..

the words are bit hard and meerly 1 or 2 are from privious TCS paper (remember this coz we generally depend on it)

I recall in my paper only two words i. e. 'rubbish' and 'controvert' were from previous paper and words like 'Mirrage' etc. were asked for 1st time.

For these words go through GRE Barrons word list. u will get it easy if u are gone through book 'word power made easy 'by Norman Lewis.

2nd section consists of very less aptitude ques. from R.S. Agrawal and maximum ques. are based on 10 and 12 std. maths i.e. ques. on parabola ellipse, matrices etc.but this section is easy and u can easily crack it with some basic knowledge of maths.

3rd section is analytical reasoning in which ques. on puzzles, logical diagrams, etc. are included. its is most easy section.

ur result is displayed on screen as u complete test in Online test.

as u shortlist in test u have to undergo technical intervierw 1st and after passing it u have to go for HR.

technical interview is not so difficult only u should be confident in it. as u passed aptitude test its very easy to get in TCS though u are not so strong in technical only the fact is u should be confident and fluent in english. also remember that HR is also elimination round in TCS so be prepared for it. answer with care in HR, generally the ques. like

1 Why should I hire u TCS?

2 why do u want to join TCS?

3 what u are having different than others that I select u? also qus. like ur achievements in past, ur goal in life.

In my college 290 students were eligible for TCS out of which 37 were shortlisted for T.I. and from this 18 were for HR and finally they select 15 students.

Friends best of luck for TCS interview

TCS-Placement Paper-29 May 2006-Pondichery

I got placed in TCS.

TCS came to our college as in the first slot. Over 400 participated and they selected only 124.

There was an online exam. In that they selected around 270. In technical interview they selected around 170 and after HR they took only 124.

Online exam s easy for me. As usual it consisted of 3 sections.

Verbal - 20 minutes - 10 synm, 10 antny, 10 paragraph.

Aptitude - 40 min

Reasoning. - 30 min - 12 questions.

They actually used 2 URL s for the online test. In one URL all are very easy including the

Verbal (mostly TCS words and High frequency words). In the other one all sections were tough, Verbal part is more tough. It all depends on luck. For me first I got the tougher one, but there was some server error, after I answered the verbal part (which was very tough, I answerd only 2 even though I read all TCS and HF words) it closed. So they told to login using the other URL. It was very very easy.

I was able to complete in 1 hr 15 min.

Reasoning wat I got is fully Barons 12th edition.

I read from one paper advising the students to read the followin for reasoning.

GRE Barron's LR(12th edition)

Model test 1: Section 5 and 6, from page 442-448

Model test 2 :Section 1 and 6,page 473-476 and 495-498

Model test 4 :Section 5 and 6,page 590-595

Model test 5: Section 3,page 628-631 and Section 7,page 644-646

TCS-Placement Paper-08 April 2006-West Bengal

I have got good news to share. I have cleared TCS!!! Hip Hip Hurrah. TCS had come to our college Siliguri Institute of Technology (Siliguri, West Bengal) on 7th and 8th of April. This mail is to inform everyone about my experience.

The recruitment process consisted of:

- i) Initial screening(60% in 10th and 12th and 70% in B-Tech)(188 were screened from over 350 in this phase)
- ii) Online Aptitude Test(42 cleared this test)
- iii) Technical Interview(26 cleared the technical round)
- iv) HR Interview.(15 people got through the HR round. Yes, they slashed 11 out of 26)

Aptitude Test:

Everybody got a different mix of questions.

The antonyms and synonyms were 70% common.

The sentence completion passage was very tough. It was about steadily depleting energy resources and alternative sources of energy. I don't think I got all of them right.

The comprehension passage was quite easy. What's more I got it common as it was from Barron's GRE guide (page 104, 15th edition passage on components of atmosphere) (Time 20 mins for verbal non verbal part. 10 synonyms,10 antonyms and two passages)

The quantitative part was repeated from previous papers(Time 40 mins-38 questions)

The logical part was again from Barron's GRE guide 12th edition. There were three passages with 4 questions from each passage. (Time 30 mins)

Technical Interview:

The panel had two people both aged under 30. One asked pointed questions another was moderate. HR questions were being asked for the first 5-7 minutes followed by technical questions and puzzles in between.

- Q.1. Why did you select this college? Did you have any other choices? What were they? Why not an Open University? (as I had said college was not that much important for me),
- Q.2. what are your hobbies reading books and playing computer games), who is your favourite writer(J.K. Rowling), have you read all her books, Have you read Da Vinci Code, what kind of games do you play? Do you play strategy games? Which game? Have you played empire earth? Have you played Road rash?
- Q.3. Why is your career graph so sinusoidal?(My marks in 12th was not good while 10th marks and B-Tech marks were better)? What are your favourite subjects? In which field would you like to work?

Visit <u>www.123eng.com</u> Engineering projects Chat with other engineers at <u>www.123eng.com/forum</u>

- Q.4. You have mentioned that you want to work for a concern which provides growth opportunities. But in TCS you have none.
- Q.5. Question from DBMS; full form of RDBMS, why is it called relational? unique key, composite attribute, self join, relation schema?
- Q.6. Questions from OS; zombie process, interaction between shell and kernel, CPU scheduling algorithm?
- Q.7. Question from Linux; what is the first line in any shell script? command line arguments in shell script? Execution of shell script?
- Q.8. Questions from C; how do rate yourself in C out of 10? Question on command line arguments? Question on character pointer? Question on string compare?
- Q.9. Puzzles; Tell me within three seconds how will you distribute 10 rupees among two of us so that I get 1 Rs more than him? Puzzle of two liars? Puzzle on shape of words of the alphabet?

HR Interview:

Panel consisted of a young lady under 30 and a man just over 30. Questions were pointed but not asked in an aggressive way

- Q.1. What were you people discussing outside? (we were cornering those who had finished with their interview)
- Q.2. What are your friends' views about this panel?
- Q.3. What sort of questions do you expect from this panel?
- Q.4. What kind of books do you read?
- Q.5. Tell me the story of the recent book that you have read.
- Q.6. What discrete measurable skills do you have which gives you an edge over your friends?
- Q.7. In what situations would you leave a company?
- Q.8. Do you have anything to ask us?

The funda is to stay cool and focused. They will try to grill you. But, don't showany sign that you are feeling uncomfortable.

Luck is also a factor. So, BEST OF LUCK to all aspiring candidates.

TCS PAPER ON 26th APRIL AT GUJARAT

Hi all I am Kavan Patel(6th EC) from U.V.Patel College Of Engineering(Kherva). I would like to share my experience. I hope my experience will be helpful to the TCS aspirants.

The selection procedure comprises of 3 phases.

1.Aptitude
2.Technical interview
3.HR and MR interview

Aptitude had 3 sections
1.Verbal
2.quantitative
3.critical reasoning

For aptitude i referred previous papers of TCS.Latest papers will be more helpful. For verbal and critical reasoning refer 12 edition GRE(model test papers).

In technical interview they asked the basics of all the subjects we had studied. More stress was laid on C and C++. The interviewers were very good, they tried their best to relieve the atmosphere(i was very tensed before the interview).

There were 2 interviewers. One will ask the question and other will notice u. The first question he asked was ""introduce ur self"".

Then he asked about my favorite subjects. Make sure that u dont miss C and C++ in your favorite subject list. Then he asked basic questions of all the subjects we studied. It lasted for 35 to 40 minutes.

Then there was HR and MR interview combined. That was not as tough as technical interview(for me it was easy).HR lasted for 10 minutes.

TCS INTERVIEW PATTERN ON 19th APRIL

He asked my other frns of mine to write a C program ... to my surprise he did not ask me for writing any program i was expecting him to ask me more Questions but he did not n enquired

"Why do u want to join TCS?"

"I'll send my feed back to ur HR n u can move now!"

from his facial expressions i understood that i'm through but i had few queries n asked him a couple he answered them patiently.

i was very happy that i could do it well

I was confident that i would make it into TCS

after the results were announced i was very happyall of my frns who went till HR were selected ... not even 1 was rejected ... The HR was very cool n asked my frns abt their gal frns n their favorite frns (i was absolutely shocked !!!!!!!!)

Quick sort, Merge sort, Selection Sort, Bubble Sort are the hot questions

For ETC people difference between Yagi-Uda antenna & normal antenna was asked.

A puzzle was also asked to some- using two 2s make 32. [22 in base 15]

HR

This interview is rather a formality if u have done well in Tech interview. Mine was of about 2 mins.

They asked me about myself, my hobbies, why I like quizzing and Why TCS (be prepared for this)

The result was out at 11:00 pm and I was selected among the 297 students selected in KIIT. History was made as such a large number was placed on the first day

TCS PAPER ON 17th APRIL

Hi myself KHYATI PANCHAL I m a student of SVIT VASAD studying in 6th Sem ELECTONICS AND COMMUNICATIONS. I was really very passionate about TCS so I worked really very hard to get job at TCS. So first of all I want to share with u all about my aptitude exam.

APTITUDE EXAM:

The test is taken online. For this aptitude plz refer R S AGARWAL(QUANTITATIVE APTITUDE) and also VERBAL AND NON - VERBAL SECTION. Mainly for maths part refer the last years papers it would be quite helpful for u.

TECHNICAL INTERVIEW:

Our technical interview was at INFOCITY GANDHINAGAR. I was the third candidate for the interview. I was interviewed by two of the panels.

first of all they asked me to introduce myself.

Then they asked me about my project which I had done on DEW GUARD.

Also asked me to explain about my seminar on INTERRELATIONSHIP BETWEEN REMOTE SENSING AND GIS.

Then they tested my knowledge on programming side i.e. C and C++.

I was not so sure about the program but my logic was good.

then they asked me about difference between C and C++.

So my interview was over after 15-20 minutes. After that I got my results within 10 minutes. At 11:30 am I was relieved by knowing that I have cleared the technical interview.

HR INTERVIEW:

Our HR interview was going to start at 2:30 pm but due to some reasons it started at 4:45pm. But my HR interview was really very cool and calm. They made me quite comfortable and thus asked me about my hobbies and my liking to join TCS. Then I was also asked the meaning of my name. And so it was really a very good experience. But they didnt declared the results on that day. They told us that they would send it to our college. Next day when we moved to college we all were very desperate to know our results. Finally our HOD came at 1:30pm and announced the results. So at last my passion my hard work and also last but not the least by GOD's grace I achieved my goal at TCS.

Finally now I m selected for TCS. Plz do HARD WORK and have a POSITIVE ATTITUDE which would help u a lot.

TCS PAPER ON 11th APRIL

hai guys this is the paper that came 2 me in my aptitude session. Dont mug up or fail to work on questions which will b of great blunder to ur score. Only 10 of the 38 questions are repeated all others are fully new &where some datas are also not given in critical reasoning part.

Here are some which i remember

- 1. which number of the series 65 33 17 !! 7 5
- 2. What is rate of transmission for a bucket of data N kb to b transferrred at a rate of .0001 bits/sec(similar to the old bucket sum which has the answer of 30 milliseconds)
- 3. What is the temperature rise b/w 4 pm and 9 pm in chennai at the rate -
- $t^2/6+4t+12$. Recursion of g(n-2)+g(n-1) find g(6) where g(0)=g(1)=1
- 5.venn diagram sum i dont know corect ques but it is a old one.
- 6.a,b,c has afuel loss of 30%,20%,40% what is the net fuel consumed.

7.A,B,C can finish awork in 4 days.A can do it in 12 days.b alone in 18 days.how much days does c take to do.

8. The plane travels from 32deg 10 degE to 42 Deg 70 deg W the plane lands at 2 am.it has travelled 10 hrs. What is the local time.

9.animal-lion=type of these r some syn/anty i remember. I referred gre barrons book 12th edition eventhough the antonyms seemed to b tough syn mite,= ,tender=soft tenacious= exonerate= antonyms defiant, divident, appease, all are very high freq words barchart this is mainly based on the growth of the company some chart is given and u notice that is easy.

critical reasoning some thing from barrons that is given which is heavy and inadequate in data some relation may b given and ques may b asked who is related with who? if a is the sister to b what will b C such ques willb given.

Then if premji want to select 4 plumbers and 2 electricians. The hiring mall has send 3 electrician and remaining plumbers. The they are olive ,miraj,varun. The plumbers are saji.varun,and som bla bla.....(i forgot it) a is north west of b and south to c like that one sum is asked

Moreover there is a sum on widows system in Barrons twelveth edition which is asked My friend got the same problem in Model test in Barrons which 5 people speaking some eng, french, italian and who needs interpreter to communicate this is in 12 th edition. I prepared well but bad luck led me to elimination in the first round be bold and confident vocabulary should be studied well. Technically sound as basics of c like they may say 2 write a fibonacci, strcmp, strrev, pascals triangle, diff b/w array and pointers, structure and union and real time application such as how tube light works such may b asked. So b sound in all aspect I am an electronics engg though i know some basic .

Forget the past and iam preparing for the next company wipro.... meet u with wipro ques bye !!Pray for me

TCS PAPER ON 10th APRIL AT BELLARY

Hello Friends I am Vishwanath gouda B . I got selected to TCS .My written exam was on 10th April 2007, and technical round was held on 11th April 2007. 280 students were written the written test, out of which 80 of them are selected for technical round and finally after the technical, MR, HR round 38 were selected and I am one among them.

The pattern of question paper obtained to me is given below. It may be helpful to u.

I Written test: The paper was as usual 3 sections **Verbal Ability**

[Synonyms (10M) + Antonyms (10M) + Two passages are there each carries 6M (2 X 6 = 12)]

GRE Barron's is enough for this section

Some of the synonyms are

- 1.. sage
- 2. linger
- 3.admonish
- 4..crave
- 5.cannotation
- 6..stimulate
- 7.gay
- 8. Vacillate

II. Quantitative & logical

A plane moves from 9°N40°E to 9°N50°W. If the plane starts at 5 am and takes 8 hours to reach the destination, find the local arrival time.

Since it is moving from east to west longitide we need to add both ie,40+50=90 multiply the ans by 4(here 1 deg longitude=4min)

90*4=360 min =6hr

So 8-6=2hr

Than 5am+2=7am(ans)

A, B and C are 8 bit no's. They are as follows:

 $A \rightarrow 11000101$

 $B \rightarrow 00110011$

C -> 0 0 1 1 1 0 1 0 (- =minus, u=union=or)

∩-and

Find ((A - C) u B) = ?

We have to find (A-C) U B To find A-C, We will find 2's compliment of C and them add it with A, That will give us (A-C)

2's compliment of C=1's compliment of C+1=11000101+1=11000110

A-C=11000101+11000110 =10001001 Now (A-C) U B is .OR. logic operation on (A-C) and B

10001001 .OR . 00110011 The answer is = 10111011

Whose decimal equivalent is 187.

Which of the following is power of 4 a) 2345 b) 9875 c) 4096 d) 9833 (ANS C)

TCS INTERVIEW PATTERN ON 10th APRIL

HI FRIENDS!!!!!!!!! This is Rupam Mukherjee alongwith Parikshit Dutta from NIT DURGAPUR en route to TCS. TCS visited our institution on 9th and 10th april. It was awarded the first slot.I,RUPAM is from CHEMICAL and Parikshit is from MECHANICAL. so,

the selection procedure consisted of three parts: first it was the written test called the TCS talent test followed two rounds of interview christened as 'TECH' round succeeded by the MANAGEMENT round. Frankly speaking we didnt prepare anything for the test. Prepare the vocabs and few quants from the recent papers. That suffice ur purpose. Quantitative aptitude is very easy and r mostly of class 10 level and nyways....he he...they are mostly marked earlier b'coz the same paper is circulated in all the colleges. Moreover no need to prepare a CV because they provide with a personal data form and it is all that counts. Here r the questions asked in the interview......aproxx 45+15 mins (total)

I:which companies come here?

R: named a few..

I: describe CONDUCTION..

R:described wid a diagram..

I: described distillation column..

R:fumbled...

I: How is petrolium refined...

R: told dat hasnt been covered yet..

I:write a C program printing name... R:wrote...

i cleard the tech round and advanced to the M.R round in the afternoon.....

HI FRIENDS

DO U WANT TO ATTACK TCS PAPER. THE PAPER IS REALLY VERY EASY.WAT U SHD DO IS TO GO THROUGH THE PREVIOUS PAPERS. THE PATTERN IS AS FOLLOWS

U WILL HAVE TO DO 3 SECTIONS **VERBAL**

APTITUDE

CRITICAL REASONING

VERBAL PART CONSISTS OF SYNONYMS AND ANTONYMS. PREPARE FRM PREVIOUS PAPERS. OR ELSE U GO THROUGH BARRONS WORD LIST WITH WORDS STARTING WITH LETTERS A,P,S,R,T,C. THIS PART ALSO CONSISTS OF READING COMPREHENSION WHICH MOST OF U THINK THAT IT IS DIFFICULT. BUT U CAN DO IT WELL IF U GO THROUGH THE BARRONS RC EXERCISES. DON'T ANSWER ALL YHE Q'S.

INNOCUOUS

COMPOSURE

CANDID

RINALE

SORRY FRNZ I DON'T REMEMBER ALL YHE WORDS. BUT THEY R EASY TO ANSWER. RC IS ABOUT "BLACK AMERICAN REVOLUTION" .THIS IS FRM BARRONS 12TH EDITION.

U WILL HAVE TO DO SENTENCE COMPLETION TOO. I GOT ABT "FUNGUS". YTHIS IS ALSO FRM BARRONS 12 TH EDITION.

APTITUDE SEC IS VERY EASY.SAME Q'S FRM PREVIOUS PAPERS BUT SOME CHANGES IN NUMBERS. ANSWER AQL, THE Q'S.NO PROBS.

THIS SEC IS VERY IMP. GO THROUGH BARRONS 5 MODEL TESTS FOR THIS. ONLY 12 TH EDITION BARRONS .BUT DON'T ANSWER ALL YHE Q'S .U MAY BE DISQ.LEAVE 4 -5 Q'S.

I WAS SHORT LISTED FOR THE INTERVIEW ON 21 ST .FRNZ I THINK THIS PAPER REALLY HELPS U.
ALL THE BEST.

TCS INTERVIEW PATTERN ON 7th APRIL AT HYDERABAD

Written test was very easy .if v wil prepare aptitude from previous papers tats enough. n v shd prepare critical reasoning from gre Barron's book n even English paragraph is available in that book (A,B,C,D,E)at the starting. Shd read all test papers for critical reasoning..

I would like to share my interview experience with u all. For me they combined both technical n mr round

The person interviewed me was really cool.

The questions r

1.Tell abt ur self

2.Tell abt ur project. I explained my project with block diagram .he was satisfied . i asked him whether he understood it he told yes.

3.he asked me to write a program so tat if v enter the marks of students they get grade a b c. tat is if the student gets more than 80% then he shd b given rank a n if between 70% n 80% thn b n below 70% is c I did it using if elseif n else for the three grades.

4.asked me to draw the flow chart for the program.

5.if a hollow cube of 8 cms is given .n a cube of 1 cm is to b filled in the hollow cube thn hw many such 1 cm cubes r required to fill it .

ans is 8^3

because tat is the formula for volume of a cube.

6.he asked me tat if the cube is painted all the sides thn hw many cubes r the without any side painted.

Ans is 6³.he asked me the approach. I told him I counted in told it.

7.wat do u knw abt tcs?

8.wat is data?

9.any questions?

Here I asked wat r the steps they r taking to make tes to b global top 10 by 2010? He answered

Thn in hr.

Here she asked me the below questions.

Tell abt ur self?

Tell abt ur family?

Wat all questions did they ask u in mr n technical interview?

Wat did u do all these months?

Any questions?

Here I asked wat all technologies tcs is using.

N wat all technologies wil they provide training for us.

It all depends on our luck who wil interview us.

By gods grace I completed all the rounds. Now am waiting for my results.

Thanks n regards, veena

It is easy if u solve previous papers. There r 3 diff. papers X,Y,Z. They r X<y ur luck. There r 3 parts :

1 VERVAL: - u have 2 learn many words as u can (in Z set words r not so easy) a passage which u have 2 rearrange & a passage u have 2 answer some questions 2 ANALYTICAL: - easiest

3 REASONING: easy if u solve BARRON'S GRE 12th edition

After appte we have 2 fill up a FORM there is everything about me.

TECHNICAL ROUND: 5th April

I am a student of Mechanical. In my technical I have faced these questions Tell about yourself?

Thermo is ur one of the favorite sub(It is in the form) So tell me what is entropy? What is enthalpy? (not eqn want 2 know physical signi.)Tell me the 1st law?

He give me 2 draw a simple bending moment dia and want 2 know abt apron mechanism

I mention I know C(FORM)

What is mean by & its full form

What do u mean by header file & library func?

What do u mean by odd and even loop? give ex.

Write down the syntax of printf, scanf, for & while loop?

What is array? How 2D array is written? What is pointer?

How address is denoted?

Last of all he ask me why I want 2 join s/w? (prepare this ques. Well)

HR & MR ROUND: 5th April

Tell about yourself?

Why U want 2 join TCS(say about company profile)?

So ur 1 of the hobby is traveling Where did u go last? With whom? (don't try 2 lie)

Some of the words i remember are: (inclusive of synonyms n antonyms) indigenous, latent, stifle, raucous, mitigate, minion, tortous, infallible.

Suggestion: For this section do all previous year TCS words. But this is not always enough, coz i got some difficult words other than these which were not there in previous year papers. if u've time, better do the wordlists (750 words or so) from barrons... i mean the exercises given.

Sentence completion consisted of 2 passages :

Passage 1: relating to dust harming machines in a factory & its adverse effect on our health...

Passage 2: Investing in shares...

assuage.

Here there was blanks in the passage where we had to insert the appropriate sentence from the list of given options. Each passage had 6 such blanks to be filled.

Suggestion: My sincere suggection is dont waste more than 4 - 5 minutes on synonyms n antonyms. coz, sentence completion takes a hell lotta time as all the options given are nearly similar n confusing. But u can easily score well in this sent comp part if u do carefully.

quantitative: 32 questions, 40 mins

Suggestion: For this part do prev year papers very well. almost 90% common questions came. some questions had the data a bit changed.

some which i remember are:

- 1. whats the largest prime no. that can b stored in an 8-bit memory?
- 2. In the word SENSATIONAL 1st letter is interchanged with 2nd, 3rd with 4th, 5th with 6th and so on. what is the 10th letter?
- 3. In a 2D array, X(9,7) with each element occupying 2 bytes of memory, find the address of X(8,5). Given address of X(1,1) is 3000.

- 5. Select odd one: Oracle, Linux, Ingress, DB2
- 6.A man n child can do a work in 6 days. Man can alone do it in 24 days. How long will the child take?
- 7. Convert 342 (in decimals) to base 5.
- 8. No. of faces, vertices n edges of a cuboid is:?
- 9. If M denotes modulus, R denote round off, T denote truncation, the find the value of:

$$M(373.5) + R(3.4) + T(7.7) + R(5.8)$$

10.
$$G(0) = -1$$
, $G(1) = 1$, $G(n) = G(n-1) + G(n-2)$. then $G(5) = ?$

- 11.at a particular place the temperature varies as $t^2/2 + 8t + 3$. where t is elapsed time. find the temp difference between 6 pm and 9 pm.

$$B = 01111010$$

$$C = 01101101$$

Find the decimal equivalent value of (AUB)^C where ^ denotes Intersection

- 16.A, B,C are mechanisms used separately to reduce fuel wastage by 30%, 20 % and 105. what'll b the fuel economy if they were used combined?
- 17. Find the singularity matrix out of the following: (sorry, dont remember the options)
- 18. If \$ means tripling and % means change of sign, then find the value of :

- 20. 3 questions were given on data interpretation using a bar chart nad a pie chart.

Critical reasoning: 3 passages, 12 questions, 30 minutes

Suggestion: Do all the 250 critical reasoning passages from barrons 12th or 13th edition model test papers 1 to 5. u'll get 100% common questions. names may be changed...

my passages were:

- 1. armenian, latin, celtic language courses.....
- 2. Big university, small college 3 member team. 2 representatives of the big university.....
- 3. seating arrangement....

its observed, they always give 2 easier and one harder critical reasoning passage.

HEY GUYS, IF U HAVE AN ONLINE TEST, & IF AFTER THE EXAM YOUR PSYCHOMETRIC WINDOW OPENS UP ON THE SCREEN BE ALMOST SURE THAT U HAVE CLEARED THE APTITUDE TEST. otherwise also u can get selected depending on relative performance, but this is an almost instant indication...

TCS PAPER ON 18th MARCH AT KOLKATA

HI

FNDS I AM SENDING YOU SOME TIPS THAT WILL HELP YOU ALL TO CRACK THE CAMPUSS RECRUITMENT OF T.C.S

THIS RECRUITMENT WERE TAKEN PLACE IN THREE ROUND::

- 1. APTITUDE TEST.
- 2. TECHNICAL ROUND.
- 3. MANAGEMENT AND HR ROUND.

Total time allotted for the test was 1:30 min

I DON'T REMEMBER THE EXACT QUESTIONS ON APTITUDE PAPERS BUT I AM GIVING YOU ALL THE TYPE OF QUESTIONS. THE TECHNICAL AND THE HR QUESTIONS WHICH I HAVE GIVEN BELOW WILL REALLY HELP YOU ALL TO ACHIEVE YOUR GOAL.

APTITUDE PART:

IN THE APTITUDE PART THERE WERE THREE SECTIONS:

- 1. VERBAL PART.
- 2. QUANTITATIVE PART.
- 3. LOGICAL REASONING

Section 1: VERBAL (32 questions)

- a. Synonym: 10 questions.
- b. Antonym: 10 questions.
- c. Fill in the blanks with appropriate sentences from the provided list.(6 QUESTIONS)
- d. Reading Comprehension.(6 OUESTIONS)

For antonyms and synonyms consult GRE BARON. U will find all the words common from that which will help you to score a good mark as many student find this part to be one of the toughest part in the aptitude paper.

Fill in the blanks consisted of one whole paragraph with some gaps. These gaps must be filled in with sentences given at the end of the questions. You will have to decide where each of these given sentences suites best within the paragraph. in fill in the blanks there was 6 questions, you have to read the passage carefully as the words given in the options are too much confusing . reading comprehension is similar to the old pattern of reading comprehension questions. Consult barrons GRE. here were three passages consists of 6 questions in all.

Section 2: QUANTITATIVE(38 questions)

Examples:

- 1.TO FIND OUT THE POSITION OF A PARTICULAR 2-D ARRAY ELEMENT WHILE THE STARTING POSITION IS GIVEN AND THE BITES OCCUPIED.

 2. A WORD WAS GIVEN AND BY INTERCHANGING THE POSITION OF THE LETTERS 1ST WITH THE 2ND AND SO ON...OF THAT WORDS, WHICH LETTER WILL BE IN A PARTICULAR POSITION.
- 3. THERE WAS A PROBLEM ON TEMPERATURETHAT THE TEMPERATURE OF A CITY FOLLOWS SOME EQUATION AND AFTER A DEFINITE PERIOD OF TIME YOU HAVE TO FIND OUT THE DIFFERENCE BETWEEN THE TEMPERATURE.
- 4. SOME POINTS ARE GIVEN ON X AND Y AXIS AND YOU REQUIRED TO FIND OUT THE NATURE OF THE CURVE PRODUCED WHEN IT WILL BE PLOTTED IN A GRAP
- 5. A PROBLEM ON MATCH THE LEFT AND RIGHT COLUMNS WITH SUITABLE MEANINGS.IT WAS AN EASY ONE,I TNK YOU ALL BE ABLE TO DO THAT.
 6. FEW OUESTIONS ON VENN DIAGRAM.DO IT CAREFULLY.
- 7. DO CAREFULLY THE FOLLOWING CHAPTERS FROM R.S.AGARWAL WHICH WII HELP YOU TO SOLVED ALMOST ALL THE PROBLEMS IN THE QUANT PART, AT LEAST THE SOLVED EXAMPLES
- A. NUMBERS.
- B. AVERAGE.
- C. AGES.
- D. PERCENTAGE.
- E. PROFIT AND LOSES.
- F. RATIO AND PROPORTION.
- G. TIME & WORK.
- H. TIME & DISTANCE.
- I. PROBLEMS ON TRAIN.
- J. BOATS AND STREAM.
- K. ALLIGATION OR MIXTURE.
- L. SIMPLE INTEREST.
- M. COMPOUND INTERSET.
- N. LOGARITHM.
- O. CLOCK.
- P. PERMUTATION & COMBINATION.
- O. PROBABILITY.
- R. HEIGHT AND DISTANCE.
- 8.Second figure consisted of a bar graph and a pie chart with figures and labels and you will have to answer questions based on those graphs. GRE barrons quantitative.

Section 3: CRITICAL REASONING

FOUR paragraphs and with 4 questions each. Each paragraph gives u a logical problem EXACTLY similar to the OLD GRE logical reasoning problems, like problems on sitting arrangement, order, etc. Solve barrons GRE logic games.

THOSE WHO CLEAR APTITUDE SECTION OF THE TEST ARE ELIGIBLE FOR TECHNICAL ROUND.

THESE ARE SOME TECHNICAL QUESTIONS WHICH I HAVE FACED: IT WAS A ROUND OF 30 MIN......

- 1. INTRODUCE YOURSELF.
- 2. DESCRIBE OOPS CONCEPT OF C++.
- 3. WHAT IS INHERITENCE, POLYMORPHISM, ABSTRACTION, ENCAPSULATION.
- 4. WHAT IS CLASS AND OBJECT.
- 5. WHAT ARE THE ADVANTAGES OF C++ OVER C.
- 6. WHAT IS POINTER, ARRAY, STRUCTURE, UNION.
- 7. WHAT IS FUNCTION OVERLOADING.
- 8. CONTROL OR LOOPING STRUCTURE OF C.
- 9. WHAT IS LINK LIST AND DESCRIBE WITH SUITABLE EXAMPLE.
- 10. WHAT IS STACK AND QUEUE.

AS I AM A STUDENT OF ECE SO HAVE TO FACED SOME QUESTIONS LIKE......

- 1. WHAT IS COMMUNICATION....AND A BRIEF INTRODUCTION TO IT.
- 2. WHAT IS DIGITAL ELECTRONICS.
- 3. DESCRIBE THE LAN AND WAN CONNECTION OF NETWORKING.

THAT'S ALL WAS THE TECHNICAL ROUND AND THE STUDENTS QUALIFIED ARE MOVED TO THE HR ROUND.

HR OUESTIONS.....

O BE PREPARE WITH ALL THE QUESTIONS WHICH IS GIVEN BELOW.....

- 1. INTRODUCE YOURSELF
- 2. WHAT DO U KNOW ABT T.C.S

TCS PAPER ON 16th MARCH AT INDORE

Hello frenz, TCS came to our college on 16th march with 3.15 lacs package and by the grace of God I m placed in TCS. Let me share my experiences with u. First of all guys, TCS is the company in which u can get thru easily, what u need is just a little hard work and lots of confidence.

First occurs the written test, which is an online test, comprising three sections:

1) **Verbal(30 mins):** This section contain 10 Antonyms, 10 Synonym questions and 2 Reading Comprehensions in which u have to fill the blanks and complete the passage with the appropriate options. Don't prepare anything for this section because u will be unfamilier of 90% of the antonyms ansd synonyms. Passage will also be new, just do it, it will be easy.

There will not be any negative marking and also no sectional cut-off. I haven't prepared anything about this section.

- **2) Aptitude (Quantitative):** This is the most easiest section. Just do the previous years question paper as much as u can for this section. Remember one thing, don't try to learn the answers because they usually change the digits. 38 questions will come from this section and 40 mins will be given to solve them.
- 3) Logical Reasoning: This section seems to be very easy because all the questions come from GRE Barron's 12th edition 5 model test papers and LR practice exercises. But my suggestion is, learn the Barron's LR thoroughly but be aware of the method of solving LR questions, because there may come questions that may not belong to Barron's, as happened with me.

There will be three LR questions each having 4 sub-questions, so there will be 12 questions from this section. Remember, this is the most important section, if u are unable to do it u will not get thru with written.

Now comes the Interviews:

- 1) **Technical Interview:** This is the rejection round. But don't get afraid...u can get thru easily if u are confident. Just do C and C++ thats it, prepare one subject of your stream too, for eg: CS students can prepare DBMS or OS and EC students Data Comm etc. Remember, write only those subjects in ur resume in which u can confidently speak, otherwise it will create a big trouble for u. I have written Basics of C and C++ only in my resume. However I have studied OS too as I am a Computer Science student. I was asked C++ questions only. They had asked me all the OOPS concepts and asked me to relate it to the real world objects. I have done it successfully.
- 2) Then comes HR round: This round comprises of general questions only like: Tell me about ur family and ur education? Strengths and weaknesses Why TCS? Why should we hire you? Where do you want to see yourself after 5 years? and all that

Where do you want to see yourself after 5 years?...and all that Submit your resume to cvs@123eng.com

www.123eng.com Engineering the Engineers

Remember, answer the quetions confidently because they will create questions from your answers only. For eg: If u say that after 5 yrs I wanna see myself as project manager, then they may ask u about the work being done by a project manager. So be aware of your answers.

We had faced Managerial Interview too, in which they asked puzzles (just want to see our approach to p'blems), this interview happens rarely so don't get nervous.

Thats all my frenzz...

There were 245 people seated in the campus.

139 cleared the written the test.

85 cleared technical and 68 cleared HR

And among 68 people, i was the one.

KEY TO SUCCESS: Be cool and calm, be confident (even if u are not knowing the answer, say i don't know confidently, they just want to see your confidence) and don't get nervous...not even for a single moment. I m sure u will get thru.

ALL THE BEST

We will meet at TCS.
